

The Barwon **GAME CHANGER**

BUILDING GENDER EQUALITY IN SPORT

The Barwon Game Changer is a pilot project aimed at building the capacity of women and girls involved in community sport and recreation clubs in the Barwon region.

What you and your club will receive?

As part of the project your club will join a select group from the Barwon region who will be the first to develop specific gender Equity Action Plans. Your tailored plan will assist you in attaining the required 40% female board Governance representation by July 1st 2019. Your club will also receive targeted club support, workshop training opportunities and access to high quality resources. Your involvement in this project will strengthen and support your clubs work in increasing diversity, building leadership and governance capacity of all members, especially women and girls.

How will your club do this?

We will have conversations about gender equality, social inclusion and respectful relationships in a sporting environment. Everyone can be involved in this activity so there is shared ownership of the outcomes. Your club members will develop ways of building leadership capacity for female club members which will provide a tangible way of increasing the impact of women in your club to make change.

What we require from you?

Be involved, committed and willing to approach gender equality, social inclusion and respectful relationships in a sporting environment.

What to expect?

Initial Project Launch and Inclusive Clubs Presentation, Club Network Workshops, Loads of support.

Where and When?

September 2018 – June 2019
